This year marks Artemis Art's fourth participation Art Fair Philippines and the first since a two-plus year hiatus due to the global pandemic. We are indeed delighted to be back and to be a part of this fair once again.

Three artists featured in our participation this year are Dedy Sufriadi, Syahbandi Samat, and Taufik Ermas. Syahbandi Samat is a Malaysian artist and his inclusion marks the artist's Art Fair Philippines debut. Indonesian artists Dedy Sufriadi and Taufik Ermas have both previously participated with us in earlier editions of the art fair, between 2018 and 2020.

Any artwork enquires may be directed to info@artemisartgallery.com, or via any of the contact methods listed on the last page of this catalog.

Artist Profiles

Dedy Sufriadi

(b. 1976 in Indonesia)

Contemporary abstract artist Dedy Sufriadi has a wide repertoire of work and styles, encompassing the use of many different elements. The many disparate visual styles that can be found across his vast body of work can be tied together by one common trait – his mastery of color and composition. Dedy is perhaps best known for his work related to text, an element of modern life that humans are subject to at virtually every waking moment, whether realized or not.

This year marks the artist's fourth appearance at Art Fair Philippines, showing with us in our 2018 and 2020 group presentations, as well as in Hypertext: Requiem, a solo showcase in 2019.

Art Fair Philippines 2023 continues the momentum Dedy's career has experienced in 2022, the artist making major art fair debuts in Taiwan (Art Solo 2022), and in Europe with Personal Structures: Reflection (organised by the European Cultural Centre Italy [ECC Italy], a Venice Biennale parallel even), plus being included as part of our lineup for Asia NOW 2022 in Paris, France.

Syahbandi Samat

(b. 1992 in Malaysia)

His use of the ordinary ballpoint pen has made self-taught Malaysian artist Syahbandi Samat one of the more unique Malaysian artists currently practicing, and whose works are almost always instantly recognizable.

Syahbandi's works currently delve deeper into his own psyche, projecting his inner thoughts, experiences, and aspirations. Successfully breaking away from the need to "please" with his artistic creations, Syahbandi addresses issues that are important to him, such as corruption, the environment, and of course, introspective works dealing with his own life experiences.

This is Syahbandi's Art Fair Philippines debut where in addition to his works on canvas we will also be presenting the artist's sculptural interpretation of objects from his ballpoint artworks, providing an additional facet to the artist's growing repertoire.

Taufik Ermas

(b. 1984 in Indonesia)

The dialectics of space and delving into human psychological scarring and memories are among the ideas central to the body of work by Indonesian artist Taufik Ermas. Having survived a near-death tragedy during the major 2006 Yogyakarta earthquake that caused his home to collapse, burying him alive for a short period of time before being rescued, the life-changing experience has become an important touchstone in his artistic career as he continues to deal with the trauma experienced more than a decade and a half ago.

Canvas augmentation is a key feature in his artworks, either through his layer/contour technique, physical ridges (or its inverse, niches) created on the canvas surface without tearing through or cutting the canvas; or through physical canvas and frame modifications to create negative spaces within his visual narratives.

Both styles of canvas augmentation are presented in our participation this year, the second edition we have featured Taufik as one of our exhibiting artists.
